Forecast for Monday 22 Aug 2022

Weather: Showers developing during the early hours of the morning, light at first but possibly heavy by dawn. Into the morning, showers are likely to become more widespread with cloud gradually thickening and lowering across the summits. This low cloud is expected to persist through the afternoon, before clearing eastwards into the evening as precipitation becomes lighter and more drizzly. Skies will mostly clear overnight, although patches of low cloud may linger over hill tops.

Chance of cloud-free hill tops above 600m: 90% deteriorating to 50% by midday. Improving to 70% by evening.

Low cloud and visibility: Good visibility at first, possibly moderate in heavy showers. As cloud base lowers to around 600m visibility over the summits will become poor. Improving to good for most areas by evening, however remaining poor in patches of low cloud base 300-400m.
